

## DISCUSSED BRIDGE WITH OFFICIALS

County Officers Meet With  
Commercial Club  
Men.

Whether or not the county as a unit can legally vote bonds for the construction of a wagon and interurban bridge across the Arkansas river at Tulsa to replace the present dilapidated structure will be determined in the next two days by County Attorney Ed Crossland, Mr. Crossland, County Commissioners Avery, Lucas and Baker, and County Engineer Hughes were yesterday the guests of the directors of the Commercial Club at the daily luncheon and the matter was informally discussed.

Crossland promised to look up the matter and report to the directors by Wednesday. If there is any legal objection in the present law to the plan, the Commercial Club will ask the legislature to pass a law that will allow the bridge to be built.

All the directors and the guests yesterday expressed themselves as being in favor of the plan to build a modern bridge at a cost of about \$200,000. If it could be legally done, should the county attorney report that the law is all right the Commercial Club will at once circulate petitions asking the county commissioners to call an election to vote the necessary bonds.

## ENGLISH PLAN TO START BLOCKADE

Nothing Further Has Been Heard of  
the Zeppelins; Report May  
Have Been False.

LONDON, Feb. 2.—(3:30 a. m.)—Nothing further has been heard up to this hour of a Zeppelin raid nor is there any confirmation of reports that German submarines were seen yesterday in the Irish sea between Holyhead and Dublin. Cross channel services are still running and it is considered there is no great danger from swift vessels.

There seemingly was no occasion for alarm in London over a Zeppelin raid and the authorities have been unable to discover how the rumors arose that one was imminent.

English papers comment bitterly on Germany's methods of waging war and discuss what methods Great Britain should use in reply. The Morning Post advocates the declaration of a strict blockade of the German coast, contending that such a step is practicable.

Regarding the difficulty of dealing with neutral vessels bound for neutral ports with cargoes for re-export to Germany the paper says:

"Diplomacy exists for the removal of such difficulties."

The sailing of the steamer Dacia has reopened newspaper discussion of her status. The Chronicle, in an editorial, reminds the American people that Great Britain's decision not to declare cotton contraband was a costly concession to America.

"Every one of our brave men who falls by a German bullet or is blown to pieces by a German shell," the paper says, "is a victim of American grown cotton. We are not complaining, but the point is one Americans might fairly bear in mind when they hear Von Bernstorff and Dernberg declaring about the inconsiderateness of British naval interference."

## CITY TO REGULATE ALL THE "JITNEYS"

Commissioners Believe Autos Should  
Run on Schedule; Sweep Street  
Car Passengers.

Consideration of an ordinance that will effectively regulate the jitney car service will be taken up by the city board of commissioners at their meeting this morning. An ordinance considered to cover the ground has been drafted.

It calls for the regulation of the new service in such a manner as to protect the street railway from the jitney cars which sweep passengers of the former. A sufficient bond is called for by the ordinance to protect fully the life and limb of prospective patrons.

The fairness of the proposition to keep the jitney off the streets where the street railway has established

and it agrees with me," writes a doctor, "better than any breakfast food on the market—unless there is one I have not tried."

Grape-Nuts is scientifically prepared to agree with both strong and weak digestions. Long baking—about 20 hours—partially pre-digests the starch cells for quick, easy assimilation.

Besides, Grape-Nuts supplies, in concentrated form, all the nutriment of wheat and barley, including the invaluable mineral elements often lacking in ordinary food.

Wax-sealed—crisp—ready to eat—and economical.

## THE ROYAL FAMILY OF HOLLAND.

The royal family of Holland—Queen Wilhelmina, her consort, Prince Henry of Mecklenburg-Schwerin, and their daughter, Juliana Wilhelmina, princess of Orange.

business is unquestioned. The latter has, by long years of work, established a business which would only be hampered by a rival operating on the same streets. The street railways hold the franchise on these and are heavily taxed for the same.

Both sides of the question will be represented at the commission meeting. Responsible business men contemplating the establishment of services of the jitney nature have applied to the city officials for an ordinance of regulation in protection for themselves.

## VAUDEVILLE ACTOR WANTED FOR RAPE

Is Alleged that He Assaulted a 16-  
Year-Old Girl in Topeka,  
Kansas.

Wanted for the raping and robbing of a 16-year-old Topeka, Kansas, society girl, L. E. Bishop, vaudeville actor, who was booked at a local theatre this week, was taken to the Kansas town by Under-Sheriff Hugh Larimer Sunday night, after he had been identified by the latter and three other witnesses who accompanied him to Tulsa. He was arrested Sunday afternoon by Detectives Patton and Del Becaro.

At the time the act was committed, January 14, feeling was running high in Topeka, and if Bishop had been taken immediately a mob trial would likely have resulted. He attempted to persuade Chief Burns to assist him in proving an alibi.

## BOY BANK ROBBER IS GIVEN 30 YEARS

Pleaded Guilty in Judge  
Linn's Court; Money Is  
All Recovered.

PAWNEE, Okla., Feb. 1.—Billy Inhoff, aged 18, pleaded guilty to having participated in the robbery of a spectacular daylight holdup, and \$1,100 was secured by the men, of which \$700 was recovered when the men were captured.

There were three bandits participating in the robbery which was a spectacular daylight holdup, and \$1,100 was secured by the men, of which \$700 was recovered when the men were captured.

But Clark, one of the trio, turned states' evidence, and confessed to the crime implicating the other two. He piloted a Tulsa attorney and officers of Pawnee county to the hiding place of the remaining \$1,400, most of which was in silver, and it was recovered and returned to the First National bank at Tulsa.

## FREDDIE WELSH LOSES TO OHIOAN

AKRON, Ohio, Feb. 1.—Johnny Griffiths, local lightweight, outpointed Freddie Welsh, the champion, in a twelve-round bout here tonight, according to the majority of newspaper men who saw the fight. No decision was given.

The fighting was fast and Griffiths' advantage if any was merely a shade. The champion showed himself superior at inighting and forced the fight all the way through. Griffiths tried to keep his opponent at long range fighting, in which the local boy used his left to good advantage.

While both boys were supposed to weigh in this afternoon at 135 pounds, Welsh refused to get on the scales and they fought at catch weights, Welsh weighing about 128 pounds.

## GUNBOAT WINS

CINCINNATI, Feb. 1.—"Gunboat" Smith won a newspaper decision here tonight over Jim Flynn in a ten-round boxing contest. There was never a time during the bout that Smith did not have a shade the better of the argument on points, but the stamina displayed by Flynn won the admiration of the audience.

Flynn could be called the aggressor, inasmuch as he used boring-in tactics throughout and while he received four blows in return for every one he delivered, he was in good condition when the contest ended.

## STOPPED IN FIRST

MEMPHIS, Feb. 1.—Bobby Waugh of Port Worth, Tex., tonight knocked out Jack Hanson of England in the first round of what was to have been an eight-round fight here. The men are lightweights.

## KILBANE WINS

BUFFALO, Feb. 1.—Johnny Kilbane of Cleveland, featherweight champion, outboxed Young Kansas of Buffalo in the last three rounds of a ten-round bout here tonight. Kansas had held the champion even for seven rounds. Neither fighter suffered much punishment.

## TYPHOID CLAIMED

MRS. C. H. O'DONNELL

The death of Mrs. Charles H. O'Donnell of 1701 South Boston avenue occurred Monday morning at 1 o'clock, after an illness of three weeks. Death was due to typhoid fever.

Mrs. O'Donnell is survived by her husband, two daughters, the Misses Nancy and Pauline, and one son, Charles H. Jr. A sister, Mrs. George Williamson, of St. Louis, who has arrived here, and two brothers, Lewis Fryberger of Noble, Ill., also survive the deceased. Mrs. R. L. Roberts of Oklahoma City, and Mrs. Anna McShane of Olney, Ill., relatives, are also coming for the funeral on Wednesday.

## FOODSTUFFS FOR THE BELGIANS

Cargo Values at More Than \$400,000  
Sails.

NEW ORLEANS, Feb. 1.—The British steamship Wabana cleared for Rotterdam today from here with a cargo of foodstuffs to be distributed among destitute Belgians. The vessel was one of several chartered by the Rockefeller foundation and was assigned to transport to Europe a contribution of goods from the people of Louisiana. The cargo is valued at more than \$400,000.

## WOMAN IS MISSING

Left Home About a Week Ago; Father  
Unable to Locate Her.

SAPULPA, Feb. 1.—Mrs. Dick Little, 26-year-old wife of Richard Little, is missing. She left the Schramm glass plant, where she was working, over a week ago, and has not been seen by any of her friends.

Mr. Little is in Arizona. The girl's father came from Arkansas to visit her last week but was unable to find her at the last address she had given him. It was this discovery that prompted a search. The father went back to Arkansas last night after finding no trace of his daughter.

## ANOTHER PARTY NOW

New Move to Be Directed Against  
Carranza and Villa Armies.

EL PASO, Feb. 1.—A movement directed against the Carranza and Villa elements in Mexico has been launched by the Centrist party, which supported Diaz and the Huerta regime, according to authentic information received here today. The new movement is said to have received the adherence of men formerly wealthy land owners.

## Leasing Farms.

There are three classes of land owners who do not cultivate their farms, but lease them; the retired farmers, who at least think that the rent of their farms will keep them in town; the business men who buy land, believing it to be a safe investment; and the speculators, who buy because they believe it will increase rapidly in price, as it has done for the last fifteen years.

These all rent or lease them to men who actually cultivate them. Hence the contracts they made in leasing them are becoming a matter of vital interest to the public at large, which must be fed from the land.

Any system of leasing that impoverishes the land is a menace to the public welfare.

## Many Banks Do Not Desire to Handle Small Loans of Small Business or Salaried Men

This policy is all right and considered good business by many good bankers. Our policy is different.

## We Want to Loan Money to Small Borrowers—

- 1—We Loan on Character
- 2—We Loan on Mutual Knowledge
- 3—We Loan on Security

With us character and our knowledge of character is two-thirds where security is one-third.

The way to secure banking credit is not by merely opening a bank account. It's by getting acquainted with the bankers you do business with. We want to meet the small borrowers of Tulsa.

## NO FUNDS YET FROM CORPORATION TAXES

Special to The World.

OKLAHOMA CITY, Feb. 1.—In view of the fact that certain questions concerning the taxes levied against public service corporations are now under observation by the supreme court, Attorney General Freeling has advised that it would be proper to not distribute the fund until the supreme court has finally settled the matter. In many places public service corporations are operating in more than one county and taxes are levied against them. Relative to the distribution of the taxes the attorney general has advised W. L. Alexander, state treasurer, to "instruct county treasurers not to apportion said fund to the use of the school districts in which property on which tax was levied lies until the matter is finally passed upon."

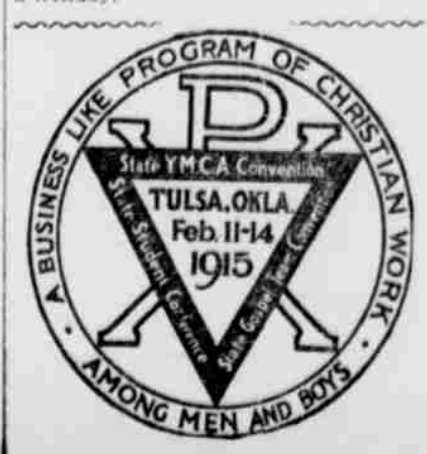

## WATER MAN ON POLICE FORCE

L. J. North is Night Desk Clerk at the "Station."

L. J. North, formerly an employee of the Tulsa water department, assumed the duties of night desk clerk at the local police station last night. Reece Moran, night sergeant, has been acting in capacity of both clerk and sergeant until recently when the duties became too arduous.

## Put Funds in Pawn.

M. G. W. Coster, clerk of the Liverpool & Galt store, recently reported to the members that it had become a custom for persons about to enter the workhouse to "pawn" any money they might have. "A man may have a sovereign in his pocket when on his way to the workhouse," added the clerk, "and he knows that it might be taken from him and applied toward his maintenance. So he pawns the sovereign for expence, and redeems it when he goes out for a holiday."

CURE KNOWN.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp. Dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine—adv.

## ON THE ROOF OF A CONTINENT.

Rarity of Atmosphere Makes the New-  
comer Feel Like a Stranded Fish.

Life at Cerro de Pasco (on the roof of the Andes in Central Peru), nearly a league up, is as trying as life under a diving bell at the bottom of the ocean. The newcomer gasps for air like a stranded fish and wakes up at night gulping mouthfuls out of the thin atmosphere. Three quick steps put one out of breath, and after a flight of stairs one sits down for a rest. "I know now," pants a tourist, "how I'll feel when I'm 59."

The young fellows play tennis and ball and even indulge in track athletics, but the pace has to be slow, and what with sports, late hours and insufficient sleep, the candle is burning at both ends. Singing is not popular, for you can't get the breath to hold a note. Pneumonia is a sure death here within 48 hours, so the sufferer may have to be rushed down in a special train that costs \$500. The typhoid patient, too, must flee, and the gringo women must descend to Lima to bear their babies.

The nerves become so fast that every six months one takes a sea level vacation. Nevertheless, it is possible to become only too well adapted to this climate. I met an Englishman who, after 22 years' residence at Cerro de Pasco, learned that his lottery ticket had won him a prize of \$5,000. He took train for Lima, intending to cash his luck and have "one good time," but as he reached the lower levels he was so unpleasantly affected that he turned and went back to the altura, doomed to pass there the remainder of his days—Century.

Reversing Things.  
The worm has turned, and the editor of the Colony Free Press issues the ultimatum: Owing to the fact that we raised about four hundred fine squashes in our garden this year

we will discontinue the practice of taking them on subscription and reverse the order—giving every person who subscribes to our paper a squash with a year's subscription. See how you like it. Come on in while the assortment is complete and get a long neck. They are mighty fine baked, boiled or roasted. If you go hungry it won't be our fault.
